Discover this 2025 Ferrari Purosangue, the first four-door, four-seat model in the marque's history and a genuine automotive landmark. Its naturally aspirated 6.5-liter V12 delivers a spine-tingling 725 PS through an 8-speed dual-clutch transmission, in a front-mid layout few cars can pair with a V12.

The chassis is built around a static 49:51 weight distribution, carrying slightly more mass over the rear axle to maximise traction out of corners. Under braking the load shifts forward and the car settles toward a balanced 50:50 stance. Drive comes through Ferrari's advanced 4RM-S system, evolved from the GTC4Lusso, which keeps the Purosangue a rear-wheel-drive sports car by default and sends torque to the front wheels only

on demand, when it senses a loss of traction or under hard acceleration. That front drive is available solely in the lower gears and disconnects entirely at higher speeds. The S denotes independent four-wheel steering for sharper, more agile cornering.

Finished in Nero Daytona metallic on custom Nero Opaco matte rims, it pairs an extensive carbon-fibre package, including a carbon steering wheel with LED shift lights, with a two-tone Cuoio and Rosso interior, yellow brake calipers and a matching yellow rev counter. As a left-hand-drive Purosangue, it is ready for export worldwide, with Elegant Import & Export managing the full shipping process.
