We are delighted to present this 2023 Ferrari SF90 Spider, Ferrari's first series production plug-in hybrid convertible, finished in Giallo Montecarlo over a Blu Sterling cabin. This is a left-hand drive Ferrari, the configuration most buyers outside Japan are searching for, and it is offered in brand new condition with one owner, no accident history and a well maintained record.

At its heart sits the F154 FA, a 4.0 litre twin-turbo V8 working alongside the car's e-AWD electric drive for a combined 1,000 PS through an automatic transmission. Above it, the latest version of Ferrari's RHT retractable hard top turns the car from sealed coupe to open spider at will, so the chassis and performance inherited from the SF90 Stradale lose nothing in everyday usability, with electric-only running on hand when the moment calls for it.

The specification is exceptionally rich, including carbon fibre racing seats and a racing seat lifter, 20 inch diamond-polished forged wheels, a titanium sports exhaust, two-tone bodywork, an AFS headlight system, a suspension lifter, and carbon fibre across the driver zone, door panels, front spoiler, rear diffuser and undercover. A rare used Ferrari SF90 Spider for sale, available now for worldwide export from Japan with Elegant Import & Export handling the full shipping process.
