We are delighted to present this 2025 Ferrari SF90 Spider, a left-hand drive open-top flagship built through Ferrari's Tailor Made programme and finished in the bespoke shade Bronzo Takada Sakura. At its centre sits the F154 FA, a 4.0 litre twin-turbo V8 working alongside electric drive for a combined 1,000 PS, with a dual-clutch transmission and e-AWD traction, placing this among the most powerful road cars Ferrari has ever built. Plug-in hybrid running also brings the ability to move under electric power alone.

The cabin carries the same one-off commissioning. Silver Alcantara trim runs throughout, joined by carbon fibre racing seats in a special diamond stitch pattern, a carbon fibre steering wheel with LEDs, a black leather headliner, a carbon fibre kick plate and a silver dedication plate. Twenty-inch forged dark grey wheels, titanium wheel bolts, black sports exhaust tips, an AFS adaptive headlight system, a suspension lifter and a rear parking camera round out a comprehensive specification.

Presented in brand new condition as a strict two-seat convertible, this is a collector-grade left-hand drive Ferrari for export worldwide. Elegant Import & Export manages the documentation and shipping from Japan on your behalf.
