Built for heavy general haulage, the 2020 Isuzu Elf flat body truck pairs a proven Japanese chassis with a 4.6 ton payload rating and a full flat low deck that keeps loading fast whether you work with a forklift, a crane, or an open yard. The flatbed platform takes on cargo a box body cannot swallow, from steel, timber, and drums to pallets, machinery, and bulk construction materials.

Power comes from Isuzu's 2,990cc 4JZ1 inline four cylinder turbo diesel, rated at 175 PS and driving the rear wheels through a manual gearbox. The 4JZ1 is among the most trusted light truck engines in service today, valued for its common rail efficiency, its long service life under load, and parts availability that reaches across Asia, Africa, the Middle East, and the Pacific. Dual rear wheels spread the load for stability at full payload, and a twin battery setup supports dependable starting.

With a three seat cab, a crew rides with the load rather than following behind. This used Isuzu Elf is ready for worldwide export from Japan, with Elegant Import & Export handling documentation and shipping from start to finish.
