We are delighted to present this 2018 Isuzu Elf (TRG-NPR85AN) — a well-maintained 3-ton refrigerated freezer truck powered by the dependable 4JJ1 2,990cc diesel engine producing 150PS with manual transmission and right-hand drive. Built on a high deck configuration, this Elf freezer truck is purpose-built for cold chain logistics, food distribution and temperature-sensitive cargo transport across urban and regional delivery routes.

Fitted with a side access door in addition to the standard rear entry, this unit offers excellent operational flexibility — drivers can retrieve cargo quickly without fully opening the rear doors, helping to maintain the freezer body's internal temperature during high-frequency multi-stop deliveries. Equipped with air conditioning, airbag, ABS, back camera, power steering, power windows, double batteries and double wheels, this 2018 Elf freezer truck is available for worldwide export directly from Japan through Elegant Import & Export.
