Built for general cargo and building supply runs, the 2018 Isuzu Forward is a 2.85 ton flat body truck with a high deck, ready to haul construction materials, machinery and palletised goods. This used Isuzu Forward for sale pairs a practical open platform with dual rear wheels for confident load carrying on regional routes.

Power comes from Isuzu's renowned 4HK1, a 5.2 litre inline four-cylinder intercooled turbo diesel producing 210 PS. The engine is valued worldwide for its durability and wide parts availability, so servicing is

straightforward in most export markets. It drives the rear wheels through Isuzu's Smoother automated manual transmission, giving clutchless shifting that eases driver fatigue in stop-start delivery work.

A dependable Japanese diesel truck for contractors, hardware suppliers and logistics operators, it is available now for worldwide export from Japan, with Elegant Import & Export handling the full shipping process.
