Introducing this 2017 Isuzu Forward (TKG-FRR90T2) — a capable 3-ton refrigerated freezer truck equipped with Isuzu's proprietary Smoother AMT (Automated Manual Transmission), a clutchless shifting system that delivers the fuel efficiency of a manual gearbox with the ease of automatic operation. Powered by the robust 4HK1 5,190cc diesel engine producing 240PS with right-hand drive, this high deck freezer truck is built for demanding cold chain logistics across food distribution, pharmaceutical transport and temperature-sensitive cargo operations.

Adding excellent operational versatility, this unit features a side access door alongside the standard rear entry — allowing drivers to retrieve cargo quickly without opening the full rear, preserving internal temperature during multi-stop deliveries. The Smoother AMT further reduces driver fatigue on long and frequent delivery routes, while the full equipment list including air conditioning, ABS, power steering, power windows, double batteries and double wheels makes this Forward freezer truck a well-rounded choice for fleet buyers. Available for worldwide export from Japan through Elegant Import & Export.
