Introducing the 2017 Isuzu Forward TKG-FRR90T2, a versatile and capable 2.5-ton wing body truck built for efficient cargo distribution and logistics operations. Powered by the dependable 4HK1 5,190cc diesel engine paired with a manual transmission, this truck offers the performance and endurance needed for demanding transport work. The wing body design provides wide side access to the full cargo area, making loading and unloading fast and straightforward from either side.

Adding further convenience, this Forward comes equipped with a power gate, making it easy to load and offload heavy cargo without additional equipment — a significant advantage for last-mile delivery and distribution work. It also features AC, ABS, airbag, power steering, power windows, AM/FM radio, double batteries, and double wheels. With a clean accident-free history, this is a solid and practical workhorse ready for export from Japan.
