Step into the 2005 Isuzu GALA, a full size Japanese touring coach built for long distance comfort and dependable service. The high decker layout seats 48 passengers in a raised cabin, giving every row a clear view of the road and leaving generous under floor space for luggage on airport transfers, sightseeing tours and intercity charter work.

Power comes from the 12,900cc E13C inline six, a turbocharged and intercooled diesel rated at 380 PS and driving the rear wheels through a manual gearbox. It is one of the most respected heavy duty coach

engines built in Japan, known for hauling a full load up long gradients without strain and for wide parts availability across export markets, which keeps this coach practical to service far from home.

For tour operators, hotels and charter fleets shopping for a used Japanese bus for sale, the GALA delivers proper coach class presentation with the build quality the Japanese domestic market is known for. Available now for worldwide export from Japan, with Elegant Import & Export managing the full shipping process.
