We are delighted to present this 2023 Lamborghini Huracan EVO, a left-hand drive coupe built around the 5.2 litre naturally aspirated V10 that remains one of the most celebrated engines Sant'Agata has built. Rated at 640 PS and paired with a seven speed dual clutch gearbox and all-wheel drive, it delivers razor sharp throttle response and a soaring top end no turbocharged rival can imitate.

Finished in Blu Uranus over an EVO Trim Sportivo Alcantara cabin with Arancio Leonis seat belts and tone on tone stitching, this example carries a genuinely desirable factory specification. Highlights include 20 inch Loge wheels in matt black with black bolts, orange brake calipers, the transparent engine bonnet, magneto-rheological suspension, Lamborghini Dynamic Steering, the front lifting system, Lamborghini Telemetry, the SENSONUM sound system and the High Gloss Black style package with Dark Chrome and Carbon Twill detailing.

Front and rear parking sensors, a rear view camera, heated electric seats and a smartphone interface with connected services keep it usable day to day. Offered as a one owner, accident free car that has been well maintained, this is a rare chance to secure a left-hand drive Lamborghini Huracan for sale in Japan. Available now for worldwide export, with Elegant Import & Export managing purchase, documentation and shipping to your nearest port.
