Step into the 2026 Nissan Elgrand G e-4ORCE, the fourth generation E53 flagship of Japan's premium MPV class. Its third generation e-POWER system drives the wheels entirely by electric motors, with a 1.5 litre turbocharged three cylinder engine working purely as a generator, delivering instant torque and near silent progress with no charging cables. Combined output reaches 341 PS through e-4ORCE twin motor electric all wheel drive, while Intelligent Dynamic Suspension cancels body roll and pitching to keep passengers settled.

Inside, seven seats across three rows form a true first class lounge. Zero Gravity seating spans every row, the second row captain's chairs add powered upper backrest reclining and extendable ottomans, and dual 14.3 inch displays, backlit Kumiko inspired wood trim and 64 colour ambient lighting complete the cabin. Leather trim, twin power sliding doors and a sunroof round it out.

Audio comes from a factory fitted Bose Premium 3D Surround system with 22 speakers, including SeatCentric headrest speakers in the front seats, working with Road Noise Control that uses cabin microphones to cancel tyre hum. Ideal for executive chauffeur duty, airport transfers or long family touring, this used Nissan Elgrand is available now for worldwide export, with Elegant Import and Export handling the full shipping process.
